LET'S GET OUR PRIORITIES RIGHT

LIFE IS ABOUT
MAKING AN
IMPACT NOT AN
INCOME

The most popular career choice amongst students in school has shifted from being a 'youtuber' to an 'influencer'. As an adult, what are your priorities? What choices do you want to make next year? With the pandemic chaos we have all had to make a shift (as someone who started a business 6 months before the first lockdown I feel qualified to comment) The shift has to be that we make ourselves proud of our actions and our attitudes. We help, we give, we support, we applaud, we are fair, we include. How about we spend 2022 being our own type of 'influencer' an Influencer of great attitudes and generosity?
