OWN IT!
OWN WHAT YOU LOOK LIKE.
OWN WHAT YOU DO.
OWN WHAT YOU WANT!

Why Don't Students Like School? (Daniel Willingham)

This book was first published in 2009 and is used as a research source in so many more modern reads and articles. The ideas are valid and the research is thorough and gives us an insight into how the mind has an impact on learning in the classroom. The book is a classic and doesn't rely on fads. The practical ideas are sound and the book develops teaching and learning in an easily accessible way.

A THOUGHT FOR YOUR STUDENTS...

Show your students what confidence looks like. Model the thought process of confident thinking in the same way that you model how to solve a problem. Some students don't know how to accept themselves without longing to be someone else. Celebrate their differences in these last few days of term. Move away from conformity and value the worth of the child...help them to do the same before they disappear into the consumerism of Christmas conformity.
