RISE ABOVE TOXICITY AND CHOOSE POSITIVITY.
IT'S GOOD FOR THE SOUL AND GIVES US A
NATURAL HIGH.

The Slightly Awesome Teacher (Dominic Salles)

If you ever have a chance to recommend Dominic Salles for your school INSET or listen to him talk at a conference, you will not be disappointed. He is hilarious, engaging and right! What a great combination!

This book shows you best practice in a way that makes you wonder why you haven't always done it that way! Teaching, learning, assessment, behaviour, differentiation ... practical tools that you can put into the classroom tomorrow. Easy book to read cover to cover or dip into for specific chapters.

A THOUGHT FOR YOU...

Nearly at the holidays! It is a tough time for some students and some staff which can often mean that behaviour in school gets strange.

Be intentionally positive about the people around you.

Don't involve yourself in toxic conversations – walk away or even better give a positive view.
