DON'T GET STUCK – CONSCIOUSLY AND DELIBERATELY IMPROVE YOUR PRACTICE

The Learning Rainforest **Fieldbook** – Tom Sherrington

For all you tactile readers ... this A4 softback is a curl up on your lap read! Twenty-nine case studies from schools far and wide who have deliberately and intentionally improved their practice and taken on ideas... some are totally out of the box and will

challenge your misconceptions. It gives school context, pedagogy, messages from school leaders, teachers and pupils and share outcomes. So much hard work must have gone into this research – don't waste it ... use it! This book can be a dip into book for your areas of interest so if reading cover to cover isn't your thing, this book is for you.

A THOUGHT FOR **YOU**...

Educational books are great, and they don't have to be a time consuming cover to cover read. They can definitely be a dip into the relevant chapter and aligned to your own personal development. Choose a book off the advent recommendations list and invest in you! Share books with colleagues to cut the cost or ask your line manager to invest in a staff library (or bookshelf!)
